PROFILE

”React.js Developer with [1] years of experience in building dynamic and responsive web applications. Proficient in utilizing React.js for creating seamless user interfaces, implementing state management with hooks, and integrating RESTful APIs. Strong skills in HTML5, CSS3, and modern JavaScript (ES6+), with a solid understanding of frontend development principles. Adept at collaborating with cross-functional teams to deliver high-quality software solutions and enhancing user experiences through intuitive design and efficient coding practices. ”

TECHNICAL SKILLS

Front-End:

React.js: Hooks, Router, SPA development

HTML5: Semantic markup, SEO optimization

CSS3: Responsive design, Flexbox, Grid

JavaScript (ES6+): Modern syntax, asynchronous programming, API integration

Back-End:

Node.js: Server-side JavaScript, asynchronous programming

Express.js: API development, middleware

MongoDB: NoSQL database design, Mongoose ORM

RESTful APIs: Integration, data handling, error management

Tools : Git, GitHub, npm, Visual Studio Code

| • Operating Systems | • ML & Deep Learning | • Git/Github | • Cloud Computing |
| | • Agile & Scrum | • Design Patterns | • Project Management |

EDUCATION

MCA - Computer Application

Vellore Institute of Technology, Vellore

2023 – 2024

Vellore, Tamilnadu

BCA - Computer Application

C.Abdul Hakeem College Of Arts And Science, Melvisharam

2020 – 2023

Ranipet, Tamilnadu

PROJECTS

COURSE INFORMATION WEBSITE USING REACT.JS |

2024

- **Designed and developed a course information website** using React.js and React Router, allowing users to navigate seamlessly between different course details. Integrated dynamic routing to provide a smooth user experience and maintain state across different pages.

TO-DO LIST IN REACT.JS |

2024

- **Developed a dynamic To-Do List application using React.js** to manage tasks efficiently, featuring state management with React hooks, and user-friendly UI components.
